SUMMARY

A full-stack developer with a strong foundation in engineering. My background equips me with problem-solving skills and a systematic approach to development. I'm passionate about leveraging technology to solve complex challenges.

TECHNICAL SKILLS

Languages:

HTML5, CSS, JavaScript, TypeScript, Python, Java, SQL

Libraries/Frameworks:

NestJS, Django, Spring Boot, React, Bootstrap, Express, Thymeleaf, Ajax, Flask, jQuery, ANTD

Databases:

MySQL, MongoDB, PostgreSQL, SQLite, NEON

Tools:

Git, Workbench, STS, AWS(EC2), Github, Trello.

TECHNICAL PROJECTS

FirmHub | *Full Stack Developer* | [LINK](#)

FirmHub DESCRIPTION:

- All-in-one Project Management System for construction and infrastructure projects.

Certificate Manager | *Full Stack Developer* | [LINK](#)

Certificate Manager DESCRIPTION:

- Automated system designed to streamline certificates issuance for schools and academies.

MediTracker | *Full Stack Developer* | [LINK](#)

MediTracker DESCRIPTION:

- Clinic Management System with secure scheduling, medical record, and prescriptions.

EDUCATION

Axsos Academy | *Full-Stack Developer Certificate* | Ramallah, Palestine 2025

- *Full-time Immersive training program in Python, Java, and MERN Web technologies which includes 16 weeks Bootcamp, +1200 coding hrs, +100 hrs of algorithms and data structures, +100 hrs of group activities, +410 lab/office hrs, and +250 hrs of 3 complete projects. All stacks include leet-code and Hacker Rank.*

Birzeit University | *B.A. DEGREE in Civil Engineering* | Ramallah, Palestine 2015

- *Specialization: Structural Engineering.*

PROFESSIONAL EXPERIENCE

QA/QC Engineer | MALKOM Engineering | Jerusalem 2021 - 2023

- **Inspected** construction materials and workmanship to ensure adherence to quality standards.
- **Developed** comprehensive QC checklists to standardize inspection processes.
- **Collaborated** with contractors to address non-conformance issues promptly.

Project Engineer (Execution) | *Al Tasmeeem Engineering & Contracting* | Dubai, UAE 2015 - 2020

- **Supervised** on-site construction activities, project delivery and compliance with design specifications.
- **Coordinated** with multidisciplinary teams to execute project plans efficiently.
- **Managed** resource allocation and project schedules to maintain cost-efficiency.
