SUMMARY

A full-stack developer with a strong foundation in engineering. My background equips me with problem-solving skills and a systematic approach to development. I'm passionate about leveraging technology to solve complex challenges.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript/TypeScript, HTML, CSS, SQL

Libraries/Frameworks: Spring Boot, ReactJS, NestJS, AngularJS, Django, Flask, Ajax, jQuery.

Databases: MySQL, PostgreSQL, MongoDB, SQLite.

Tools: Git, GitHub, Bitbucket, Jira, Drawio.

PROFESSIONAL EXPERIENCE

Full Stack Software Engineer | BITLAB Co. | 2024 - 2025

- **Developed** scalable backend services with Java Spring Boot and APIs with NestJS.
- **Built** dynamic and high performance frontend applications using AngularJS and ReactJS.
- **Collaborated** with teams to optimize performance and resolve issues.

TECHNICAL PROJECTS

FirmHub | *Full Stack Developer* | [LINK](#)

- All-in-one Project Management System for construction and infrastructure projects.
- Built using Django Python framework, and MySQL Database
- Libraries/Tools used: Trello, Balsamiq, Git, Github, Bootstrap, Ajax, AWS Server.

Certificate Manager | *Full Stack Developer* | [LINK](#)

- Automated system designed to streamline certificates issuance for schools and academies.
- Built using Spring Boot framework, Spring Security, Thymeleaf and MySQL Database.
- Libraries/Tools used: Git, Github, Bootstrap, Ajax, AWS Server.

MediTracker | *Full Stack Developer* | [LINK](#)

- Clinic Management System with secure scheduling, medical record, and prescriptions.
- Built using MERN: ExpressJs, ReactJS, MongoDB with JWT Authentication.
- Libraries/Tools used: Trello, Git, Github, Bootstrap, Ajax, AWS Server.

EDUCATION

Axsos Academy | *Full-Stack Developer Certificate* | Ramallah, Palestine 2024

- *Full-time Immersive training program in Python, Java, and MERN Web technologies which includes 16 weeks Bootcamp, +1200 coding hrs, +100 hrs of algorithms and data structures, +100 hrs of group activities, +410 lab/office hrs, and +250 hrs of 3 complete projects. All stacks include leet-code and Hacker Rank.*

Birzeit University | *B.A. DEGREE in Civil Engineering* | Ramallah, Palestine 2015

- *Specialization: Structural Engineering.*
